

Fort Stewart Car Care Center

Equipment from closed automotive repair facility where they performed light maintenance, alignments, and tire changes. Items include alignment rack, alignment machine, wheel alignment machine, wheel balancer, direct drive wheel balancer, rim clamp machine, tire changing machine, brake lathes, air compressor, bead seater, brake wash, refrigerant recovery machine, bulk oil tank, jack stands, various table and work stations, oil filter crusher, and more. See below for photos and additional information. Equipment was in working order when the car care center was closed in 2012. Some parts of this equipment may be missing.

The successful bidder must provide all labor, tools, and equipment necessary to disassemble, remove, and load this equipment. AAFES cannot provide assistance, equipment or tools. The utilities will be disconnected on each piece of equipment. The successful bidder will be responsible to confirm utilities (electrical, water, air lines, natural gas, sewage, etc.) are disconnected prior to commencing removal. All work must be accomplished in a safe manner and in compliance with any applicable codes or regulations. Any debris generated by the removal of the equipment will be the responsibility of the successful bidder and must be properly disposed of. You must remove all items on this auction and not leave anything behind.

All equipment is sold as is where is and no warranty is expressed or implied.
